TECHNICAL SKILLS

- HTML
- CSS
- Bootstrap
- JavaScript
- JQuery
- Git

PROJECTS

When I Was 18 | **Link to Github** | **Link to deployed site**
Front End Developer
This was a group project for the University of Minnesota Coding Boot Camp. The site uses an API that makes an educated guess about your age based on the picture you provide. Using the results, it displays the top 10 songs from the year you were 18.
- We were required to use at least two different APIs and have a form of user authentication.
- I was responsible for building the front end pages and coding in the visual design given to me.
- Tools/languages used: JavaScript, Face++ API, Google Firebase, JQuery and Ajax, Bootstrap, and CSS Animate.

EXPERIENCE

2016 - 2017

 Front End Courtesy Clerk – *Lunds & Byerlys* – St. Paul, MN
Responsible for bagging and carrying the groceries to the customers' cars. Performed miscellaneous duties such as cleaning, restocking front-end supplies, and helping close the store.

Key Accomplishments:
- Recognized by management when several customers called in to compliment me for providing excellent service.

EDUCATION

University of Minnesota, St. Paul, Minnesota – Full Stack Web Development Bootcamp
Cyber Village Academy, St. Paul, Minnesota – High School Diploma
